

Semivertical ASV02

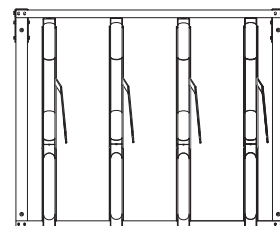

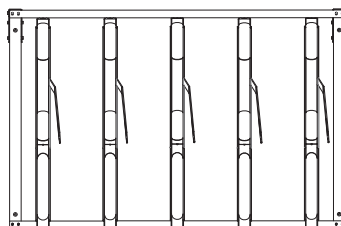

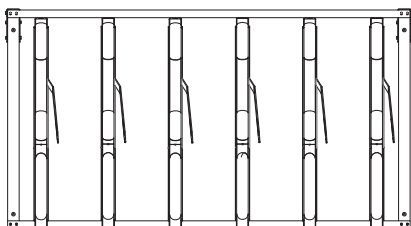

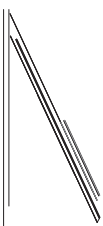

Compact and easy to use cycle parking solution to store bikes semi-vertically with both front and rear wheels fitted in a specially designed canal.

The SemiVertic includes a locking hoop compatible with U-locks and chains. It was designed for areas where space is a constraint.

Technical Features

1. Made of robust hot dip galvanised steel
2. Fitting rail for both wheels
3. U-Lock/Chain compatible security loop
4. Modular and self standing
5. Fixtures included
